As you have noticed the English edition of *Litteratura Serpenti* is very much behind schedule. We regret this, but we like to explain the situation a bit and ask for your help in solving this longstanding problem. Many people are involved in producing this magazine and it takes a lot of steps before you receive it at home. One of the main causes for the delay lies in the fact that articles that have been translated into English have to be corrected on spelling and grammar in England. Unfortunately, we do not have enough people to do this job. We would therefore like people to come forward to help us out in this matter. If the correction work can be shared it is not so time consuming. We ask for people with a good knowledge of the English language and who are prepared to do the correction work within a reasonable time.

You can contact:

Mr. P. Schiereck
Th. Elsenstraat 49
3417 WX Montfoort
Holland

We thank you for your understanding and cooperation.
